# Kristoffer West

- Head of Academy @ twoday capacity
- Senior Data Insights Consultant
- Data Nerd
- UX/UI enthusiast
- Winner of the prestigious “Power BI Shootout”

# Before we start

1. Are you also sometimes lost in space?
2. What is up and what is down, when it comes to navigation in Power BI.
3. How much is controlled and what can you adjust yourself?

**DON'T PANIC !!!**

# Agenda

## Power BI Report Navigation

- Report Navigation
- Between Reports in Apps
- Power BI Web Portal

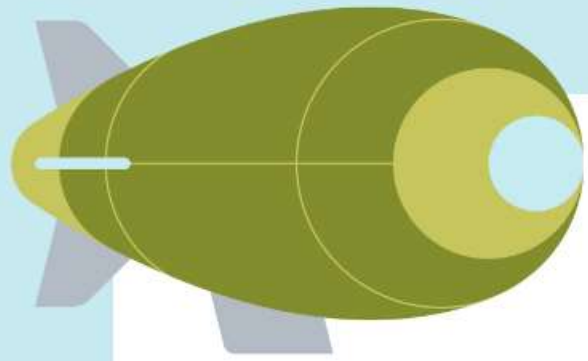

# Report Navigation

Navigation between the pages

- Use buttons
- Page navigator (Bookmarks)
- Drill through

# Pros and Cons

## Good

- Makes the report easier to use...

## Bad

- Could take some extra time to implement

# Between Reports in an App

Navigation to and between reports in Apps

- App navigation pane
  - Sections
  - links
- Dashboards
- Scorecards (Metrics)
- PowerPoint

Navigation to and between Apps ?

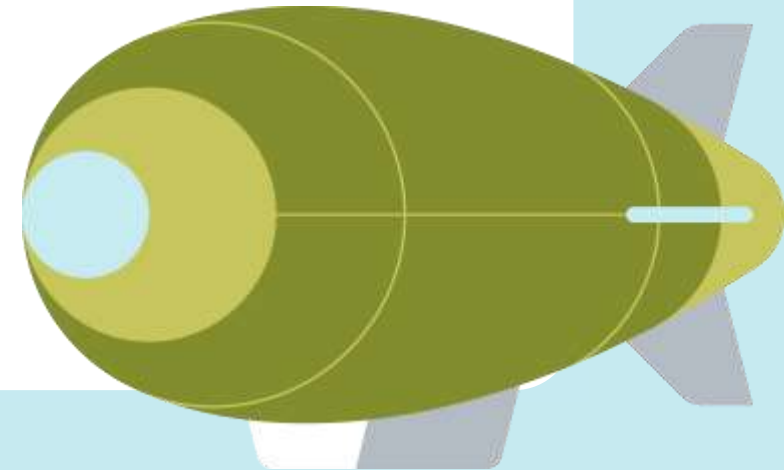

# Power BI Web Portal

- Publish content as Apps to the gallery
  - Set logo, support site, contact info
- Feature content on “Home”
- Use the “Search” function
- Use the OneLake data hub
- Create Scorecards

# External “tools”

- Link from Intranet
- Embed in Intranet
- Embed in Teams

# Questions?

- Report Navigation
- Between Reports in Apps
- Power BI Web Portal

Remember to  
rate the  
session
